**Request for obtaining data of companies working in food and petrochemical sectors**

Mr. Waheed Kamel Adly

Head of the Egyptian Commercial Representative Office

After Greetings,,

We inform you that we are National Manufacturing Company,  
One of the leading companies in the field of packaging and production of sealing systems for  
plastic and glass packages in Egypt and the Middle East.

We would like you to provide us with the names of companies working in the field of:

1- Petrochemical sector

2- Food sector

Which seeks to purchase our packaging products in order to enhance the commercial  
cooperation between our company and the companies located in the State of South Africa.

We are looking forward to opening new markets and exporting to foreign countries.

Your consideration of this request is greatly appreciated.

Sincerely,,,

--

Best Regards

Ibrahim Magdy

NCI General Manager

Galina for frozen fruits & Vegetables

Dear Sir,

This is Aya, the marketing manager of Galina Company for frozen fruits & Vegetables.

I would like to kindly request a list of importers of Frozen fruits & Vegetables.

The below is a short brief about Galina:

This year Galina invested in two states of the optical sorters to be added to our production lines to ensure product safety and a product to meet your full satisfaction. Our company has earned several international certificates such as **BRC (Grade A), FDA, Global G.A.P, QIZ (duty free for USA), FSA, ISO 22000, and Kosher.**

- Galina takes major steps towards food safety and product assurance.
- Galina, one of the major producers and exporters of frozen fruits and vegetables to the world, has been gaining solid market growth worldwide, with presence over 5 continents now Galina has the solutions market leaders are striving for.
- Galina took steps towards raw material full supply chain integration by reaching up to 80% of own farmed crops, giving our products full pesticides control and 100% traceability guaranteed.
- Galina, invests more than 500,000 euro to increase food safety standards and improve product specifications control by obtaining two of the most advanced optical sorters, so, now, our partners could sit back and relax and not worry about one of the major's hassles in our industry.
- With a production capacity of 35,000 tons per year, we are ready to supply our partners worldwide with the right product at the right time, from bulk packages of 700kg to as low as 200 grams.

Galina has earned several international certificates including QIZ (duty-free for the USA) and EURO 1 (for Europe).
